

## Skills

### Languages:

- Experienced in Java, C++
- Familiar with C, Arduino, HTML, Node.js

### Technologies:

- Git, Eclipse, Bootstrap, UML

## Awards & Achievements

<b>Cumulative Average</b>   95.3%	Sep 2015 – Dec 2015
<b>Canadian Computing Olympiad</b>   Bronze Medalist	May 2015
<b>Canadian Computing Competition – Senior</b>   Top 20 across over 3000 contestants	Feb 2015
<b>Canadian Computing Competition – Junior</b>   First across over 3000 contestants	Feb 2014

## Projects

<b>IBM Watson Developer Challenge</b>	Jan 2016 – Present
<ul style="list-style-type: none"><li>• A website built with <a href="#">Node.js</a>, <a href="#">express</a>, and <a href="#">jade</a>, which uses the Watson news and language analytics API to calculate popularity and reception of products</li></ul>	

<b>Personal Website</b>	Dec 2015 – Present
<ul style="list-style-type: none"><li>• A website constructed based on a <a href="#">Bootstrap</a> template with additional feature including an embedded YouTube video player</li></ul>	

<b>Tetromino Simulator</b>	Oct 2015 – Dec 2015
<ul style="list-style-type: none"><li>• Tetris game developed using <a href="#">Processing</a>, a variation of <a href="#">Java</a>, controlled using the Launchpad microcontroller</li><li>• Developed serial communication between the computer and the microcontroller</li><li>• Implemented Tetris graphics and game logics in modular and maintainable ways</li></ul>	

<b>Mayo</b>	Oct 2015 – Dec 2015
<ul style="list-style-type: none"><li>• Gesture-controlled painting software developed in <a href="#">Java</a> using the <a href="#">Myo armband</a> and its library</li><li>• Utilized the <a href="#">AWT</a> library for functions such as drawing, erasing, changing color and thickness, and saving to a file</li></ul>	

<b>Dongerino Adventure</b>	Nov 2014 – Jan 2015
<ul style="list-style-type: none"><li>• 2D turn-based strategy game developed using <a href="#">Java</a> and <a href="#">Lightweight Java Game Library</a></li><li>• Implemented a game AI logic using breath-first search and Dijkstra's shortest path algorithm</li><li>• Designed <a href="#">UML</a> diagram using object-oriented design principles</li><li>• Developed the core engine of the game, which was responsible for unit interactions</li></ul>	

## Experience

<b>Vice President, Computer Science Club</b>	Sep 2014 – Jun 2015
<ul style="list-style-type: none"><li>• Tutored other students in <a href="#">Java</a> and <a href="#">C++</a> about software design principles, and algorithms</li><li>• Exhibited planning and communication skills through organizing weekly meetings, contests, and demos</li></ul>
